1. **Ground Elevation** is provided by USGS's elevation web service which provides the best available data for the specified point. If unable to find elevation at the specified point, the service returns an extremely large, negative value (-1.79769313486231E+308).
2. **BWS** is provided by the LSU AgCenter's basic wind speed web service developed for the 2012 IRC building codes.
